SKILLS
Programming & Development

- **Languages**: Java, JavaScript, C
- **Web Technologies**: HTML, CSS, JavaScript
- **Frontend**: React.js, Bootstrap
- **Backend**: Node.js, Express.js
- **Databases**: SQL, MongoDB

Development & Tools

- **Version Control**: Git, GitHub, Postman
- **Cloud & DevOps**: AWS, Docker, Kubernetes
- **CS Fundamentals**: OOPs, OS, DBMS, CN

EDUCATION

❖ BCA (Pursuing) | Amity Online   CGPA: 7.5% 2026

❖ Class 12th (UP) | [Chandra Shekhar Azad IC, Umrain Auraiya]   77.00% | 2022

❖ Class 10th (UP) | [Chandra Shekhar Azad IC, Umrain Auraiya]   69.67% | 2020

EXPERIENCE

❖ **MERN Stack Intern | Techvanch *(02/2025- Present)***

- ➢ Developing and optimizing full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- ➢ Collaborating with senior developers to implement RESTful APIs and enhance backend performance.
- ➢ Working with Git, GitHub, and Docker for version control and deployment.
- ➢ Gaining hands-on experience in AWS for cloud hosting and CI/CD pipelines.

ACADEMIC PROJECTS

❖ **Airbnb Clone – Full-Stack MERN Application | Deployed on Render** 🔗

- Developed a **full-stack Airbnb-like platform** with **user authentication**.
- Implemented **CRUD operations** for **listings** (Create, Update, Delete) and **reviews**.
- Integrated **Cloudinary for image uploads** and **Mapbox API for location services**.
- Enabled **secure login/signup, user session management, and logout functionality**.

❖ **Zoom Clone – Real-Time MERN Application with WebRTC & Socket.io** 🔗

- Integrated **WebRTC** for high-quality, peer-to-peer video and audio communication.

- Used **Socket.io** for real-time messaging, user presence, and room handling.
- Implemented custom **meeting room generation**, allowing users to create and join secure video calls.
- Responsive frontend built with **React**, featuring a clean and intuitive UI.
- Fully deployed on **Render**, ensuring accessibility and smooth performance across devices.

❖ Personal Portfolio (HTML, CSS, JavaScript)   Link

- Designed a **responsive portfolio** showcasing **skills, projects, and contact details**.
- Optimized for **SEO and fast performance**.

❖ CodeHub Nexus (React.js, Bootstrap)   Link

- Built a **developer community website** with a **modern and interactive UI**.
- Implemented **dynamic components, smooth navigation, and responsive design**.

❖ Food Web (Swiggy Clone) (MERN Stack)   Link

- Created a **food ordering platform** with **restaurant listings, cart, and payments**.
- Designed a **scalable backend for fast API responses**.

CERTIFICATIONS

- ❖ **Software Engineer Certification** – HackerRank
- ❖ **MERN Stack Development** – Codehub Nexus
- ❖ **Java & DSA Certification** – Apna College
- ❖ **Full-Stack Web Development** – Apna College

ACHIEVEMENTS / HOBBIES

❖ **Achievements:**

- Secured an internship at Techvanch as a MERN Stack Developer.
- Built 4+ full-stack projects, including an Airbnb Clone and a Food Delivery App.
- Earned 6+ certifications, including AWS, Docker, Kubernetes, and Software Engineer Role Certificate from HackerRank.

❖ **Hobbies:**

- Exploring Cloud & DevOps technologies.
- Competitive coding & problem-solving.
- Blogging & sharing knowledge on web development.
